Well, they are overwhelmed already, but I can probably have someone participate if necessary.
I think if you have the R8 toxicologist involved, do we need an R9 toxicologist?

Pete, do you have some on staff that can engage with this response and work with Region 6 and 8?

Thanks,

Hi Randy,

Philip Turner and I are the risk assessors / toxicologists in Region 6 and essentially the Environmental Unit Leader.

I am in the process of scheduling daily calls with Region 8 (Deborah McKean and company).

Does Region 9 have a person who can participate on this call?

Some of the topics that we will be discussing are:

- Screening levels
- Sampling plans

- Analytical detection limits
- Etc

Thanks, Jon
